

Dicetyldimonium Chloride

INCI Name: Dicetyldimonium Chloride

CAS Numbers: 68391-05-9

Description:

Dicetyldimonium Chloride is used in conditioners due to its multi-purpose function. It will act as an antistatic agent, hair conditioning agent and protects the surface of hair. It eliminates "fly-away hair" while leaving it manageable, soft and tangle free. It provides easy comb ability with wet and dry hair. This ingredient is an excellent every day mild conditioner suitable for all hair types.
