

Ethoxydiglycol

INCI Name: Ethoxydiglycol

CAS Numbers: 111-90-0

Description:

Ethoxydiglycol is a solubilizer that can be found in hair products, makeup and bath products. Ethoxydiglycol is particularly appropriate for skin care preparations where it acts as an excellent solvent and carrier. It ensures even distribution of the ingredients throughout a product, to help it work better. Its solubility in ethanol, propylene glycol, vegetable oils, water, and butylene glycol makes it a valuable solvent or co-solvent which can be used in hydrophilic or lipophilic phases.

Technical Data:

| TEST | SPECIFICATION |
|------------------------|------------------------|
| Appearance | Clear colorless liquid |
| Color, APHA | 30.0 max. |
| Odor | Faint, characteristic |
| Acid value | 0.1000 max. |
| Moisture, % | 0.1000 max. |
| Purity (GC) % | 98.8000 min. |
| Refractive Index @ 20C | 1.4250 to 1.4290 |

Applications:

Ethoxydiglycol is used as a fragrance ingredient, solvent, viscosity decreasing agent, humectant, and as a perfume base.
