SkinBrite-99™

INCI Name: Glycolic Acid

CAS Number: 79-14-1

Description:

SkinBrite-99™ is highly concentrated glycolic acid in crystalline form. Glycolic acid is an exfoliant. It revitalizes skin and reduces the appearance of fine lines and wrinkles by removing the outer layer of dead skin and bringing a new layer of skin to the surface. It is also proven to offer unique advantages in hair care with the proven ability to penetrate the hair shaft, causing significant benefits to hair moisturization, softness, strength and manageability.

Technical Data:

Test/Properties:	Specification:
Appearance	White crystalline powder
Total Acid	> 99.0%
Heavy Metal	< 10 ppm
Fe	< 10 ppm
Melting point	78-80 °C
Chloride	< 10 ppm
Residue on Ignition	< 0.05%
Ash	< 0.1%

Cosmetic Applications:

SkinBrite-99™ is recommended especially for exfoliation and skin lightening. SkinBrite-99™ is used in facial cleansers, toners, acne treatments, moisturizers, body firming lotions, anti-aging products, sunscreen, shampoo, conditioner, hair spray, body wash, liquid hand soap and many other applications.
