

Lanolin Oil

INCI Name: Lanolin
CAS Numbers: 8006-54-0

Description:

Lanolin is also called wool wax or wool grease. It is a yellow waxy substance secreted by the sebaceous glands of wool-bearing animals. Most lanolin used by humans comes from domestic sheep breeds that are raised specifically for their wool. Lanolin Oil is a natural grease that is used to help heal chapped skin with its softening and moisturizing properties.

Technical Data:

Specification		Min	Max
Appearance	Yellow to amber liquid		
Odor	Mild, characteristic		
Acid Value			2.000
Moisture %			0.250
Residue on Ignition			0.100
